

SugarSphynx Kitten Adoption Application

Please take time to fill out and read all sections.

Name:

Address: City:

Province:

Postal Code:

Home Phone:

Cell Phone:

Email:

Date of Birth:

Marital Status:

Vet Name:

Vet Phone Number:

I would like to adopt a kitten as a:

- Pet
- Breeder
- For Show

I am interested in adopting:

- Male
 - Female-
- Color:

Names, ages, and occupations of household members:

Do you own your own home?

If renting, do you have landlord's approval? (Proof required)

How much time, thought and research has been put into bringing a Sphynx home?

Are you prepared to care for this animal for the next 10+ years?

Who will be the primary caregiver of the new kitten?

Do you or any members of your family/other occupants in your home suffer from allergies to cats?

How many hours per day on average would your Sphynx spend alone while you are gone to work?

Please list your current pets, including breed, age and sex:

Are all of your pets spayed/neutered?

If you already have pets at home, what brand/type of food do they eat?

What type/brand of food do you plan to feed your Sphynx?

How many pets have you owned in the last 5 years and where are they now?

Please note that SugarSphynx cats are sold as inside cats only. Will your kitten be kept inside?

Are you aware of the Sphynx special grooming requirements, and are you prepared to take on this responsibility for the life of your Sphynx?

Please give a brief description on what you know about Sphynx special grooming care:

What would you do with your Sphynx should your current living situation change (i.e. new baby, move to a new home/city, your new significant other dislikes your kitty...)?

Are you prepared for the "Little Extras" your new Sphynx may require? Such as, warm fleece sweaters and a heat-pad to keep your Sphynx warm when you aren't home?

What are your thoughts on declawing?

I understand that declawing the kitten/cat or allowing the kitten/cat to be outdoors for any significant amount of time could lead to the cancellation of any contractual agreements with SugarSphynx and/or null and void any health guarantees.

Are you prepared to allow an isolation/settle-in period (minimum 72 hours up to 14 days) when your Sphynx arrives in your home? This gives your kitty time to adjust to his/her new surroundings, smells, and new home before meeting all members of his new family and exploring his/her new home.

Are you aware of the disease Hypertrophic Cardiomyopathy (HCM) Even though breeders scan for HCM as a preventative measure, this does not guarantee your kitty may or may not develop it.

Are you prepared to welcome this hairless bundle of joy into your home, where your new baby will find your clean towels, bedding, furniture, clothing, and more to sleep on and lovingly leave a nice brown, oily stain behind?

Will you still love him/her when he/she poops in the litter leaving a odour known only to those that love them, and a bum that will most likely require a wipe?

I understand that making false statements on this application could potentially lead to the cancellation of any contractual agreements with SugarSphynx, failure to receive TICA/CFA/CAA Registration/or null and void any health guarantees.

If you are not prepared to handle the eye goobers, mud-butt, brown stains, constant need of attention, and a cat that will never out grow their kitten stage, this breed is NOT for you! Sphynx are high energy, mischievous, loving, dramatic, needy, into-everything-monkey-cats. Forget ever going to the bathroom alone, unpacking the groceries without help, sleeping alone, watching tv alone... They are truly the most amazing, dedicated, loyal, trusting, amusing companion you will ever meet. Once you go naked, you never go back. Welcome to your new addiction!

If you are buying your pet from SugarSphynx, your kitten will be spayed/neutered, microchipped and vaccinated prior to leaving our Cattery. You are responsible for continuation of healthcare, including routine vaccinations and deworming. Failure to provide care, and record of the care provided, will deem all contractual agreements null and void.

All of our kittens come with a 2 (two) year health guarantee. The terms of which are explained in our kitten contract.

*Please note that shipping is available at an extra cost. N/A for local homes.

We thank you for taking the time to fill out this application. Placing our kittens in their new homes is very exciting and rewarding for us, we look forward to sharing with you the amazing love your new Sphynx has to offer. We have the application to ensure that we are placing our kittens in the right homes. We are aware to some people it can be "just a cat", we put much time and effort into raising healthy, well socialized, loving Sphynx kittens. To us they are a member of the family, and we hope you feel the same. These steps also protect SugarSphynx breeding policies. Once you have been approved to adopt one of our kittens you will also be required to sign a legal contract.

In signing this document, I declare this document to be answered honestly and truthfully, to the best of my knowledge.
